2019

MOHAMMED ZAIN HASSAN

SharePoint Developer

MICROSOFT CERTIFIED PROFESSIONAL

Hi, I'm a very technically minded vibrant SharePoint Developer who tends to do tasks in a logical manner due to excellent problem-solving abilities and a flexible attitude. I work very well within a team environment and equally well on my own initiative, with the ability to make effective decisions, follow set procedures, policies and company practices. I have a high level of problem solving abilities, involving careful analysis, establishing priorities, formulating solutions and working to tight deadlines.

JAVASCRIPT | JQUERY | REACT.JS

SASS | NODE.JS | PHP | JSOM

POWERSHELL | FABRICUI | SPFX

T-SQL | JSON | TYPESCRIPT | REST

FLOW | POWERAPPS

OTHER

COMPUTER HARDWARE

WINDOWS OPERATING SYSTEMS

CAREER HIGHLIGHTS

EVOKE IT   10/18 – current

Software Developer

During my time at Evoke IT I have developed several SharePoint solutions mainly focusing around document management (whereas at Company Net my time was focused around intranets). I have also provided technical support for a brief time while assisting the support team & have provided insight about the Office 365 platform to both clients and Evoke IT. I have been a strong advocate for using modern approaches at Evoke IT due to the variety of my expertise in Office 365.

Technologies used:

OFFICE 365 | KENDO UI | TYPESCRIPT | JAVASCRIPT JQUERY | CSS | SHAREPOINT 2013 | SHAREPOINT ONLINE FLOW | HTML | JSON | HYPER-V | TEAM FOUNDATION SERVER | POWERSHELL | REST | JSOM | CSOM | SHAREPOINT 2013 | SPFX | OFFICE 365 ADMINISTRATION | FABRIC UI OFFICE | FABRICUI.JS

COMPANY NET   08/16 – 04/18

Microsoft Cloud Engineer

Primarily I provided Office 365/SharePoint On-Premise fourth line technical support. This support varied from enhancing custom On-Premise/SaaS solutions, resolving business critical technical issues for clients, developing various custom solutions, liaising closely with numerous clients at the enterprise level & handling contact with Microsoft when required. Often this support would include third line support if further assistance seemed beneficial.

Secondary responsibilities included SQA Assessor/training duties which involved training and assessing apprentices, providing equipment/server assistance internally & generally offering my skills whenever possible.

Technologies used:

OFFICE 365 | REACT.JS | TYPESCRIPT | JAVASCRIPT JQUERY | CSS | SHAREPOINT 2013 | SHAREPOINT 2016 DYNAMICS 2016 | C# BASED .NET | FLOW | POWERAPPS HTML | JSON | XML | NODE.JS | MICROSOFT AZURE WINDOWS SERVER | HYPER-V | TEAM FOUNDATION SERVER | JSOM | CSOM | OFFICE 365 ADMINISTRATION | FABRIC UI OFFICE | FABRICUI.JS | SPFX

LETTINGWEB   12/13 – 06/14

Junior Developer

During my time as a Junior Developer at Lettingweb I primarily aided with the development of the Lettingweb .NET based platform for letting properties in the UK. My responsibilities consisted of assisting with application development, management/support of IT equipment (iOS & Windows) & troubleshooting various technical issues. This role was at a very basic level.

Technologies used:

ASP.NET | T-SQL | BOOTSTRAP | IOS | WINDOWS | XML CSS | HTML | MICROSOFT SQL SERVER 2012
